### Consejos de baño WaterSense #3: Reemplaza la "rana" o la aleta del inodoro que está gotereando (OLD)

NOTA: Este video solo contiene música. No hay subtítulos. No tiene que ser difícil conseguir tu mejor baño. A veces, un pequeño cambio puede conducir a grandes ahorros, de facturas de agua y servicios públicos. WaterSense Bath Hack # 3 le muestra cómo reemplazar la tapa del inodoro con fugas. Si escucha agua corriendo o descargas sin explicación, es probable que tenga una fuga de inodoro causada por una aleta que falla. También puede verificar si hay una fuga silenciosa agregando un par de col

### [Repare una fuga con WaterSense \(OLD\)](#)

NOTA: Este video solo contiene música. No hay subtítulos. Todos los meses de marzo, durante la semana Fix a Leak (Repare una fuga), el programa WaterSense de la EPA alienta a los estadounidenses a revisar las instalaciones de fontanería y los sistemas de riego de sus hogares en busca de fugas que puedan desperdiciar más de 1 billón de galones por año. Pero cualquier época del año es un buen momento para buscar fugas que no solo desperdicien agua, sino también dinero y energía. Este video le rec

### [¡Bañate mejor haciendo cambios en tu baño para ahorrar con WaterSense! \(OLD\)](#)

NOTA: Este video solo contiene música. No hay subtítulos. Como la mayoría de nosotros probablemente estaría de acuerdo, una buena ducha nos ayuda a prepararnos para comenzar el día o descansar después de un largo día. Claro, podría acortar su ducha en un minuto y ahorrar 550 galones de agua al año. Pero algunos no están dispuestos a renunciar a nada de su tiempo de ducha. La buena noticia es que los consumidores pueden cambiar sus cabezas de ducha modelo más antiguos a una nueva cabeza de ducha

### [Cuando se da la sequía \(o no\), el verano es la temporada para ahorrar \(OLD\)](#)

NOTA: Este video solo contiene música. No hay subtítulos. El uso del agua aumenta en el verano a medida que el riego al aire libre se calienta junto con la temperatura. Este puede ser un problema mayor en áreas del país que sufren sequía. Pero hay cosas que todos podemos hacer para usar el agua de manera más eficiente durante los meses de verano. Esto incluye cambiar a favor de paisajes inteligentes para el agua que necesitan menos riego suplementario, dejar que el césped descanse de los aspers

### [Make the Switch to Shower Savings with WaterSense and Shower Better! \(OLD\)](#)

NOTE: This video only contains music. There are no captions. As most of us would probably agree, a good shower helps us get ready to start the day or wind down after a long day. Sure, you could shorten your shower by one minute and save 550 gallons of water a year. But some are not ready to give up any of their shower time. The good news is that consumers can switch their older model showerheads to a new WaterSense labeled showerhead that is certified to save at least 20% or more water and pro
